- This international preliminary examination report has been prepared by this International Preliminary Examining Authority and is transmitted to the applicant according to Article 36.
- This REPORT consists of a total of 3 sheets, including this cover sheet.

☐ This report is also accompanied by ANNEXES, i.e., sheets of the description, claims and/or drawings which have been amended and are the basis for this report and/or sheets containing rectifications made before this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions under the PCT).

These annexes consist of a total of _____ sheets.

- This report contains indications relating to the following items:
 - ☒ Basis of the report
 - ☐ Priority
 - ☐ Non-establishment of opinion with regard to novelty, inventive step and industrial applicability
 - ☐ Lack of unity of invention
 - ☒ Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement
 - ☐ Certain documents cited
 - ☐ Certain defects in the international application
 - ☐ Certain observations on the international application

INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.

PCT/KR2003/001595

I. Basis of the report

1. With regard to the elements of the international application:*

☒ the international application as originally filed☐ the description:pages _____, as originally filed
pages _____, filed with the demand
pages _____, filed with the letter of _____☐ the claims:pages _____, as originally filed
pages _____, as amended (together with any statement) under Article 19
pages _____, filed with the demand
pages _____, filed with the letter of _____☐ the drawings:pages _____, as originally filed
pages _____, filed with the demand
pages _____, filed with the letter of _____☐ the sequence listing part of the description:pages _____, as originally filed
pages _____, filed with the demand
pages _____, filed with the letter of _____

2. With regard to the language, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item.

These elements were available or furnished to this Authority in the following language English which is☐ the language of a translation furnished for the purposes of international search (under Rule 23.1(b)).☒ the language of publication of the international application (under Rule 48.3(b)).☐ the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3).

3. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing:

☐ contained in the international application in written form.☐ filed together with the international application in computer readable form.☐ furnished subsequently to this Authority in written form.☐ furnished subsequently to this Authority in computer readable form.☐ The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.☐ The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.4. ☐ The amendments have resulted in the cancellation of:☐ the description, pages _____☐ the claims, Nos. _____☐ the drawings, sheets _____5. ☐ This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**

* Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this opinion as "originally filed." and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17).

** Any replacement sheet containing such amendments must be referred to under item 1 and annexed to this report.

INTERNATIONAL PRELIMINARY EXAMINATION

International application No.

PCT/KR2003/001595

V. Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

| | | | |
|-------------------------------|--------|------|-----|
| Novelty (N) | Claims | 1-13 | YES |
| | Claims | | NO |
| <u>Inventive step (IS)</u> | Claims | 4-14 | YES |
| | Claims | 1-3 | NO |
| Industrial applicability (IA) | Claims | 1-13 | YES |
| | Claims | | NO |

2. Citations and explanations (Rule 70.7)

Reference is made to the following documents:

D1: WO 00/41061A (CHANG) Dec. 17, 1999

D2: JP 2002-47612 (NOKIA) July 25, 2000

D1 discloses a directionally-mapped, alpha-numeric data entry system comprising a key array which includes at least one set of 'n' radial direction indicator key.

D2 discloses a method for inputting KANA characters by using a software keyboard for inputting characters arranged like the matrix of 10 lines x 5 columns.

1. Novelty (PCT Article 33(2))

The present invention as defined in claims 1-13 is a method for inputting a character using a software keyboard comprising a certain number of blocks, each of capital characters being assigned to the respective blocks and peripheral character block. The subject-matter of said claims is novel under Article 33(2).

2. Inventive Step (PCT Article 33(3))

In the input of a character using a software keyboard as defined in claims 1-3, the mechanism of inputting the character by dragging to a corresponding peripheral character block and the overlapped structure of the capital character block and the peripheral character block can be easily derived from the technical features disclosed in the references. Therefore, an inventive step cannot be acknowledged for the subject matter of the present claims.

3. Industrial Applicability (PCT Article 33(4))

All claims are considered to be industrially applicable.
